

The Tropic Sentinel

Inter-urban

A better country than the San Fernando Valley to live in may have been made, but has not yet been discovered.

Don't fall out with your neighbor because he disagrees with you. Only little men do that and you are not a little man.

How nice it would be if all did right. We can't make every one do right but we can make ourselves do as near right as we know how and that would help a lot.

VOL. III

TROPICO, CALIFORNIA, WEDNESDAY, JULY 9, 1913

No. 21

THE BOARD OF TRUSTEES TRANSACT ONLY NECESSARY WORK

Too Much Doing in Tropic Last Thursday Night for a Man With Red Blood in His Veins to Discuss Routine Municipal Affairs

REGULAR MONTHLY REPORTS SUBMITTED

Permit Issued for Erection of Tent on Moore Ave. Subject to Revocation. Brand Blvd Matters to Be Considered.

The regular meeting of the Board of Trustees was held Thursday evening, but on account of the Panama-Pacific races and the big excitement in the city, the city fathers were inclined to be restive, and held only a short session. All members were present.

A communication was received from the light and power company, stating the company had furnished 1500 burners for street lights as per their contract, and that from now on the city would be expected to furnish these burners for the street lamps. The city clerk was instructed to purchase a dozen in case of need.

A communication was received from the Glendale Chamber of Commerce requesting permission to put street signs along the Tropic, giving directions as to Glendale points. This communication was read and ordered filed.

Resolution ordering street work on Dunbarton street was read and adopted.

Jerome Erskine was granted permission to erect a tent on Moore avenue, with the understanding that if any objections were made the permit could be cancelled.

The application of William O. Hood to move his garage was held up because of protest filed, and the application referred to the committee as a whole for investigation, and with instructions to report on same at the next meeting of the Board.

A contract for paving Cypress and Mountain avenues was awarded to F. R. Sinclair at the following prices. Grade, per lineal foot, 25c. Curb, per lineal foot, 22c. Sidewalk, per square foot, 8c.

The following claims were allowed and warrants ordered drawn:

Tropico Sentinel	\$15.45
T. B. Jones	47.50
Neumer Company	15.00
C. L. Jennings	50.00

The monthly reports were submitted as follows:

City Treasurer, balance on hand, general fund,	\$1,917.57
Receipts for months	156.56
Total	\$2,074.13
Disbursements for the month	887.20

Balance July 1st	\$1,186.93
Library fund, balance June 1, 1913	406.28
Receipts for month	8.00
Total	414.28
Disbursements for the month	21.70

Balance July 1st	\$392.58
Report of City Clerk	
Balance June 1st	\$2,122.48
Receipts from Marshal	21.00
From Street Superintendent	7.50
From Recorder	61.00
From Building Inspector	67.06
Total	\$2,279.04
Disbursements for the month	953.30

Balance July 1st	\$1,325.74
------------------	------------

Permits issued for buildings for month as follows:	
R. H. Kimball, residence	\$1,750.00
Frederick Adam, residence	3,000.00
C. Burnham, residence	2,000.00
F. Barday Ring, residence	1,950.00
M. E. Church, church building	8,000.00
C. M. Retts, residence	1,800.00
Total	\$18,500.00

There are several reports in circulation as to the condition of the opening of Brand boulevard. These reports have originated from the disposition of the people to accept the statements and versions of street car acquaintances, and not investigating themselves.

As has previously been said, it is the desire of the trustees to meet the wishes of the people in the opening of this boulevard in so far as possible, and anyone desiring to know what has been done, or what is proposed to be done, or wishing to make any suggestion, will receive a courteous hearing by the board of trustees, and no one, either man or woman, need hesitate to call on the trustees in reference to this matter.

Mr. and Mrs. John Logan and children and Mr. and Mrs. Wesley Bullis took a spin in Mr. Logan's automobile down to San Diego Friday morning, returning Sunday evening.

A PLEASANT EVENING.

Although the Tuesday Afternoon Club had closed its club year last week the misses' section gave a recital and reception to the entire club and their husbands in the Congregational church, Third and Central avenue, Glendale, last Tuesday evening at 8 o'clock. The occasion served to introduce to Glendale, Mr. Roy L. Smith, recently of Chattanooga, Tenn., where he was widely known as a composer and teacher. Mr. Smith's compositions formed the entire program, and were most beautifully interpreted by some of Glendale's talented singers, Mrs. Edward Shank and Mrs. Rebecca McMillan Stone and Mr. Edmond Shank being the vocal soloists and Mr. Julius Kranz the violinist. Mrs. Shank's voice was gloriously displayed and it gave Glendale a treat and was a satisfaction to realize that this article is one of ourselves. Much praise, too, is due to Mrs. Stone, whose sweet mezzo voice was very pleasing, while Mr. Shank showed taste and skill in the rendition of "Heart and Soul" and "The Creed," these two numbers being very dramatic. Mr. Kranz played the Norwegian legend exquisitely. This young Glendale artist shows splendid talent and played this dainty number in such a manner as to arouse the greatest enthusiasm. Encores for all selections were numerous and the ladies were presented with some pretty floral tokens of appreciation in addition to merited applause. The piano selection, which Mr. Smith played himself was a gem indeed. It was a great treat to the club to have this splendid program. After the recital a general hour followed and very nice refreshments were served. The church was decorated in pink hydrangeas and fern in the main church, and in the side room, where the refreshments were served, the lovely Shasta daisy and fern made a soft background for prettily arranged coffee and punch tables. The members of the music section acted as hostesses. Mrs. Jones, the president, welcomed the guests in an apt and witty little speech of welcome.

SYSTEMATIC WORK

On High School Bond Election from now on.

The mass meeting at the Glendale High school Tuesday evening, for the purpose of outlining systematic work for the election for the \$100,000 school bonds, was poorly attended. It is strange that so little interest can be manifested in a question as vital as this.

Mr. E. H. Willisford was elected chairman, and Mr. Irving H. Oliver of Tropic, secretary. After some discussion, it was decided to divide the Union High School district into precincts as represented by the present respective grammar school districts, this making eight precincts, and that a chairman be appointed for each of these districts to take charge of the work of their respective districts.

On motion, Mr. Willisford was elected general chairman, and Mr. Oliver, general secretary, who, with the eight chairmen, will plan the coming campaign.

The following chairmen for the eight precincts were elected: City of Glendale, District No. 1, Mr. E. G. Good; District No. 2, Mr. S. A. Lepperman; District No. 3, Mr. Steve Packer; District No. 4 to be appointed by the chair and Mr. Moyse. Mr. Oliver was elected chairman for Tropic, Mr. Joe Hawkins for La Crescenta, Mr. Alexander Mitchell for Verdugo district, and Mrs. Blanche Gardner for Eagle Rock.

These chairmen are to appoint such committees in their respective districts as will be necessary to carry on the work.

It was decided that the general chairman and Prof. Moyse prepare a circular stating the necessity for the money and the purpose for which it will be used, and these circulars be given free distribution.

Mr. Willisford called a meeting of the eight chairmen for 4:30 p. m. Wednesday, so as to get to work at once.

The polling places will be the Union High school for the city of Glendale and Verdugo district, and the grammar schools in each of the other districts.

Some of the citizens think that the entire bond issue, but this is not so, as each district bears its part in the bond issue. The assessed valuation of the whole district for 1912 was \$7,395,925, but this will be increased this year to about \$8,600,000. Of this \$8,600,000 the net valuation, against which the taxes are assessed, so for this bond issue the additional tax will be very small. The following figures will show the rapid rate of increase in taxable values of property between 1911 and 1912:

District	1911	1912
La Crescenta	\$ 294,125	\$ 376,430
Tropic	397,795	983,460
Eagle Rock	844,795	1,524,885
Glendale City and Verdugo	\$1,982,355	\$4,510,250
Total gross valuation	\$7,395,925	\$8,600,000

This year will show a much greater percentage of growth. Everyone get busy and work for the bonds, so that the Union High can take care of the increasing population.

A CLEAR STATEMENT OF INTENT.

A mass meeting to consider the needs of the Tropic city schools was held at K. P. hall a few weeks ago.

There it was shown that the rapidly increasing population required more room for the school children.

As the present school building is located in the southern part of the city, it was considered advisable to purchase a site in the northern part, where buildings could be erected as needed.

Thus the congestion in the present school could be relieved, and school privileges would be made much more accessible to those living in that locality.

In accordance with this resolution, and after consultation with County Superintendent Knappton, the trustees called an election for the issuance of bonds to the amount of \$20,000, to be held July 19, 1913, for the purpose of acquiring such a site, erecting buildings and furnishing same for school purposes.

It will undoubtedly be an advantage to the city to secure another school site before all the available locations are cut up into lots and perhaps covered with houses unsuitable for school purposes.

The Starting Point for the Biggest Automobile Stunt Ever Pulled Off. Sighting Seeing Parties, Dances, Auto Trips and Excursions Galore

EVERYONE REPORTS A GREAT TIME

People All Refreshed From Three Days Rest and Play and Will Do Better Work Because of this little Frolic

Hurrah! Hurrah! for the Glorious Fourth!

Tropico was decidedly in the limelight during the Independence Day celebration. First was the great Pacific-Panama Automobile race, one of the greatest features of the kind the world ever knew, with Tropic as the official starting point—even if the Los Angeles dailies have not yet learned that fact—and the interest manifested by the public in this event was a surprise to practically everyone.

It is admitted by those in charge of the race that an effort was made to keep the general public from knowing the point of departure so as to prevent the crush which would have been had if the start had been generally known. Notwithstanding this fact, about six o'clock every street leading to Tropic from Los Angeles was crowded by every kind of automobile and motorcycle, all forging to different points along San Fernando Road for the purpose of witnessing this great race. As an indication of the number of automobiles strung along San Fernando Road, it may be stated that between seven and eight o'clock a count was made of the number of automobiles passing a given point during ten minutes, and 150 machines passed. This rate was kept up for hours. There were almost as many motorcycles as automobiles.

After the race was over, the glare thrown by the headlights of the machines returning to the city made the roadway as bright as day, and the statement was often made that during the entire width of the broad San Fernando Road for miles there were not over two feet of space between machines.

It was a great event from every standpoint, and automobile people say a number of surprises were had, especially as to the speed and durability of the smaller machines.

Practically every detail of the race has been told and re-told by the dailies, but there was one little incident, a sidelight on the race, that was rather comical. Just before racer No. 1 jumped forward on its 440-mile run, a man by the name of Ferris, accompanied by a woman, dashed forward on the race course in a

CROSSING THE OCEAN IN A FLYING MACHINE.

Some day a flying machine will be crossed by a flyer machine—of that those who have followed the development of the airplane from its fledgling flights in 1905 to the recent Paris-Berlin trip are fully convinced. Lord Northcliffe's generous offer of a \$50,000 prize for the achievement will bring that day measurably nearer than we are suspected, even though it does nothing more than to arouse a world-wide interest in the performance of one of the most difficult technical achievements that still remains unfulfilled.

When Lord Northcliffe made his announcement, sober-minded engineers naturally asked: What are the difficulties in the way? Can the prize be won? If so, how much will it cost?

As we look back at Wellmans' attempt to cross the Atlantic in a dirigible, which was admirably designed and which was by far the best craft of its type built in America up to that time, we are inevitably forced to the conclusion that much preliminary experimenting must be done before a heavier-than-air machine can be sent out on its venturesome transatlantic journey with some hope of success.

It would be astonishing indeed if it were not for the amount of Lord Northcliffe's prize were not expended in these preliminary studies. But even granting that by winning the prize the successful contestant would merely reap himself, he must inevitably have developed the art so markedly that his craft will have commercial possibilities far greater than those which lie in the mere crossing of the Atlantic. Indeed, the whole problem of devising a safe passenger-carrying aeroplane capable of flying for many hours at a high speed will probably be solved. Compared with that, what is a dash across the Atlantic at its narrowest part?

If we were absolutely sure of motors and absolutely sure of the weather for thirty-six hours, a transatlantic flight might even now be attempted from Newfoundland to Ireland. But unfortunately we have no guarantee that a faulty motor will not compel a descent into a choppy sea, and unfortunately the science of meteorology is not so far advanced that we can predict the weather with accuracy for even so short a period as twenty-four hours in advance.

Because present motors cannot absolutely be relied upon, leads to a consideration of the problem of alighting upon a rough sea and ascending from great ocean waves, which has not yet been solved. But the remarkable performance of the hydro-aeroplanes at the recent Monaco meeting prove that the solution of the problem may soon be expected. Seven machines ran out of the harbor into the white-capped Mediterranean and in the teeth of a gale. All but one successfully rose from the surface, flew to Beaulieu, a point some miles down the coast, and alighted again upon a rough sea. What is more, Gaubert's performance in alighting and holding his own in a gale by means of a drag, shows what can be done on the high seas even in a storm.

To be sure, these machines were comparatively light, the heaviest weighing only 2000 pounds. But the meeting proved conclusively that the large machine of high power is not helpless in heavy seas. In our opinion a flying boat of the Curtis type is likely to be even more successful than the float type which figured at Monaco. In other words, a boat body in which much fuel, two powerful motors, provisions, and at least two aviators can find room—the very requisite for a transatlantic flight—holds out more promise than any other design.—Scientific American.

C. O. Pulliam, wife and two daughters, Misses Myrtle and Emma, returned to their home in Glendale last week after several weeks' visit with friends and relatives in the East.

HARRY L. EDWARDS Editor

"Entered as second-class matter, August 10, 1911, at the postoffice at Tropico, Cal. (Tropico Branch Los Angeles, Cal. Postoffice), under the act of Congress of March 3, 1879."

OFFICIAL PAPER OF THE CITY.

One Year.....\$1.50

Contributions from readers are always welcome and very much appreciated.

Wanted:—An ice man to sell Tropico ice at a reasonable rate and under reasonable rules.

Hot weather puts the blush on the peach; also the freckle.

No matter how the thermometer goes, this summer will be regarded by the Chicago police as mild compared with last year's political convention season.

Can some one tell why ice sells in Tropico at from 65 cents to \$1.25 a hundred when most places think 35 and 50 cents a big price?

The Antelope Valley Gazette has been purchased by Mrs. Harriett F. Day, who assumed the management July 1st. Mrs. Day is said to be an experienced newspaper woman and the Sentinel is glad to extend her felicitations.

WORK FOR, TALK FOR, AND BOOST FOR TROPICO. There is not a man or woman in Tropico but what believe that we have one of the nicest communities in California. The possibilities before this valley are practically unlimited. It is up to us to utilize and realize on these opportunities. Let each and everyone of us bury our animosities, our grouches and our kicks, and do our part to build up here a happy, prosperous, contented and ideal community. Here's to Tropico, the beautiful; may she ever be right. But right or wrong, here's to Tropico.

How much more do you know about the High School question than you did a month ago? Have you investigated for yourself or are you taking some other man's opinion?

Los Angeles parties are investigating the feasibility of importing live stock from Australia to the Southwest, to restock the depleted ranges. It is reported that the present plans call for the landing of from 50,000 to 100,000 head per year.

There will be something doing about the water question in a very short time. The committees are about all ready to submit their final reports. These reports will first be submitted to the Civic Club as a whole, then to the public. Every effort is being made by the Civic Club to handle this important matter in an intelligent manner and to recommend only that which will be to the interest of the city as a whole. In order to do this every phase of the question is being systematically investigated and considered. When the report is given to the public it can be relied upon as being the honest opinion of men who have given of their time and their effort to promote the welfare of the city as a whole.

The Sentinel's comment last week about the local ice situation has elicited many favorable remarks. Like the Sentinel the people of Tropico cannot see why they should be forced to pay 65 cents for ice that at most does not cost over 20 cents to manufacture. Many charge that in buying in small quantities they are paying double that rate. Then again being unable to buy less than 15 cents worth at a time is working a hardship on the poorer class of people. The local ice concern has vouchsafed no explanation why they are making such exorbitant charges and it is presumed has none to offer. It seems that the "ice situation" might be investigated by the proper authorities with good results. The charge has been made that a city ordinance keeps all outside companies out of the city, but this is denied. In the meantime Tropico is forced to put up with an imposition, outrageous and entirely uncalled for, and the sun scorches poor, thirsty humanity.

Mark Sullivan, one of the leading writers of the country, in speaking of the San Francisco muddle, says: "The McReynolds trouble in San Francisco is the first sign of a disease that always menaces a party in power, the disposition to 'oblige a friend,' to show a fraternal good-fellowship, by putting private convenience ahead of public duty. It was Secretary Wilson of the Department of Labor who asked the attorney general to postpone

THE BENARES BLUE MEN.

In a recent issue there was an article on Benares, a place mentioned by Miss Eulalia Richardson in her letters.

On the road to Benares, among the swarms of natives who are always streaming along the road, one sees men and boys who are stained a deep blue color from head to foot. The only clothing they wear are breechcloths and turbans, which are as blue as their bodies. And these are the Benares Blue Men.

Benares is the center of the indigo industry and a visit to an indigo factory is an experience long to be remembered.

The indigo plant growing in the fields is of a dark green color. The stalks of this plant are gathered in stacks and loaded on bullock gharries and taken to the factories. These stacks are packed tightly in layers, in elevated vats known as fermenting vats. Porous frames are laid on top and the mass weighted down. Water is then pumped in with a Persian wheel and the plants are allowed to steep.

Fermentation soon commences and in a few hours the vats are bubbling and seething to the rim. This continues for twelve or fourteen hours, when the fermentation gradually subsides. The water is then run off into the beating vats.

The beating vats are square tanks about twelve feet deep and twenty feet long and are arranged along the main room of the factory. It is, rather, one long vat divided by walls which make the

square tanks. In each of these vats are about twenty naked natives who stand waist deep in the liquid indigo. The beaters in each vat are ranged in two rows facing each other and each man is armed with a long-handled wooden spade. With marvelous dexterity and rhythmic accord both rows of beaters fling into the air streams of indigo, which dashes and splashes in showers of foam and spray overhead and about the vat and over the beaters. The beaters excite each other to extra exertions by a shrill chorus and frantic yells. Every man is as blue as a statue of indigo and is covered with foam and splashing and are the Blue Men of Benares.

The fluid as it comes from the fermenting vats is of a greenish color and the flinging and dashing about of the liquid in the air brings about a chemical transformation, which changes the tint into a beautiful deep blue by oxygenation.

At the same time that it changes in color the dye stuff held in solution granulates and settles to the bottom of the vats. When the beaters have thoroughly performed their work they climb out of the vats and allow the contents to settle.

After a few hours settling the liquid changes color again from blue to smoky green, except that it is clearer. It looks about as it did before the beaters began work on it. The liquid is then drawn off and a thick pulpy sediment of blue remains. This is the indigo. This pulp is then carried in earthenware jars to the boiling

prosecution, and he is, therefore, the real culprit. This is a pity, for he is the first labor leader to achieve so high a public position in the United States as the Cabinet, although in England labor leaders have long been given places in the ministry. In Secretary Wilson, so to speak, labor is on trial, and he owes it doubly to labor to so conduct himself that public opinion may concede more and more the right of the representatives of labor to take a high place in government.

Won't someone inform the Los Angeles dailies that Tropico is on the map. Last Thursday night we were the center of the automobile world. People were in Tropico by the tens of thousands. The official start of the great Panama-Pacific race was made from the very heart of Tropico, yet not one line did the big dailies have about Tropico. It was all Los Angeles. Now, Los Angeles is a fine place, one of the greatest cities in the world. We all love it and want it to continue to grow and prosper and spread out like the proverbial green bay tree and all that, but we do think that when Tropico is legitimately on the news map of the world we should receive a little consideration from the city dailies. The dog in the manger policy is a policy that never results in lasting good and the Los Angeles papers are making a mistake in the policy they are pursuing towards outlying districts. Such a policy alienates and antagonizes and some day Los Angeles will want and want badly the co-operation of her small suburban towns, and then, well—"Chickens will come home to roost."

The women win in Illinois. They are to have the ballot with the right to vote for all officials from the President down excepting the officers created by the state constitution. To secure the suffrage for these offices would require a constitutional amendment. Illinois is the first state east of the Mississippi River to give an almost unlimited voting power to its women. Thus the tide of woman suffrage is slowly but surely moving toward the east. No matter what you think about the great changes taking place in this country no human power can stay them. Every man and woman should make up their mind to this fact and instead of fussing, snarling and growling, get in and help make all these changes beneficial. It can be done. The more conservative minds enlisted in the cause the more good can be expected. Quit being a reactionary. Be a modern man or woman.

Oh, yes, there's peace in Mexico. Huerta has established peace and everything is serene. The secret of the one hundred million dollar bond deal has come to light and it smells oily—very oily. But what matters that? It's got to be a question of who can "get off with the biggest swag" at this time with those men who are in control of Mexico. Poor Mexico, a country rich beyond the wildest dreams, sunk into deepest misery and degradation. Why?

Oh no, there's nothing doing in this section just now. This is the dull time of the year and all that. There is only the bond election for Union High School bonds—\$100,000 worth; \$20,000 worth of grammar school bonds for Tropico; the water question, on which a dozen or more men have been debating night after night in investigating and considering; the regular routine work of making bread and meat; looking after the kiddies and keeping the wife in good humor and all that, and still some people say there's nothing doing. Just look around you and see the hundred and one things that are just crying for some one to take up and work out. There is enough work in Tropico for hundreds of men to spend every spare moment they could possibly find and still not do half what needs to be done. Get busy and lets make Tropico the finest and best place to live in that can be found in all the land.

COME AND SEE FOR YOURSELF.

At a recent gathering of Associated Advertising Clubs of America at Baltimore, James Keeley, the editor of the Chicago Tribune, accused the newspapers of resorting to falsehood, secrecy and subterfuge in stating their circulation. He said that the business integrity of newspapers is at so low an ebb that before they could market their merchandise they had "to submit to the third degree to tell the truth about what they have to sell."

This is a very serious indictment and it is not surprising that the delegates to the great convention of advertising men at once established new rules demanding that all newspapers and periodicals used by advertisers be signed hereafter "to give the whole truth about their circulations, quantity, location and how secured."

The Sentinel has between 1100 and 1200 subscribers, secured by solicitation, without prizes or premiums, and any advertiser is welcome to examine our subscription books any day.

room where the indigo is strained through wire sieves of fine mesh to remove all impurities. After it has been strained, the soft blue mass is poured into iron kettles and boiled for two or three hours, to evaporate the moisture and further granulate the indigo. It is then dumped into presses and subjected to heavy pressure by means of lever and screw.

The presses are square iron boxes perforated like a colander and lined with press clothes. By this process all the remaining water is forced out that can be removed by pressure. The indigo is turned out of the presses in dark blue cakes, which are of about the consistency of a bar of soap. Then it is cut into commercial squares and impressed with the stamp of the factory. The cakes are then removed to the drying house, a large airy shed provided with tiers of open shelves. Here they remain for two or three months until they are thoroughly dry and are then packed in boxes and shipped to market. Calcutta is the shipping point for the foreign markets. The scene of these blue figures flinging the spray into the air, the flying froth setting down over the glistening backs of the natives, the weird choruses and frantic yells, are totally different from anything ever seen elsewhere.

WHAT DID SHE MEAN?

"Mother, am I descended from a monkey?"
"I don't know. I never knew any of your father's people."

"THE GLOOM DISPELLERS"

The problem of "how to spend the Fourth" was easily solved by a number of Tropicians who made an early start in two auto trucks headed for Redondo Beach.

As early as 6:30 a. m. the gathering of the clans began, and long before 11 o'clock they were seated at the tables in the eucalyptus grove at Redondo, ready for an assault on the catables.

For the benefit of those who may have any gastronomical affliction we earnestly recommend one of these meals. They are just like mother used to make because mother made them.

We believe it to be an absolute fact that Tropico can put into the field more first-class cooks than any city of its size on the coast.

Abandoning (reluctantly) the festive board a number of the party proceeded to the ocean for the purpose of celebrating their annual bath. We mean, of course, their annual ocean bath, all statements to the contrary notwithstanding.

The special attractions and amusement places were all visited, and much surprise was expressed at the growth of the beach town.

Everything seems to grow at Redondo. Even the bathing costumes of the summer girls seem to be growing—smaller.

An hour spent at Moonstone Beach resulted in the finding of many of those fine stones, and much pleasure for the children.

Supper was served at 5 o'clock in the grove, and the return trip began at 7:00. The first division, in Will Weblitz truck, arrived home at 9 o'clock, and the second at 10 p. m., after having enjoyed a "safe and sane Fourth." (We anticipate criticism for using the word sane.)

For much of the pleasure of the return trip we are indebted to Miss Mamie Jones, whose fine soprano must be heard to be appreciated.

That these little pleasure trips are growing in popularity is attested by the number attending them. This is our third outing. One the first there were thirty-nine—on the second; on the second, forty-one, and on the last one there were fifty-six. And who were they?

Mr. and Mrs. Will Hartwig, Mr. and Mrs. Jack Hammond, Mr. and Mrs. George Hilbert, Mr. and Mrs. O. M. Carpenter, Mr. and Mrs. Joseph Griffin, Mr. and Mrs. R. L. Milligen, Mr. and Mrs. Will Dutton, Mr. and Mrs. George Peck, Mr. and Mrs. Ernest College, Mr. and Mrs. Bert Burlingham; Mrs. Anna Strasser, Mrs. Della Harpwood, Mrs. Dora Elchorn, Mrs. Martha Johnston, Mrs. Adie Atkinson, Mrs. Sophia Burlingham; Misses Helen Hartwig, Dorothy Hobbs, Regina Strasser, Amy Miller, Leona Hibbert, Daphne Burlingham, Martha Cramer, May Flanders, Dorothy and Jessie Dutton, Rebecca and Alice Carpenter; Messrs. Wayne Frank, Sam Rich, Al Vanlet, Will Hudson, Walter Hilbert, Oliver Carpenter, Osswin Elchorn, Robert Taylor, Francis Strasser, Everett Peck, Louis Bittle, John and Herbert College; Major John Weiler, Mr. Mack Schoye of Milwaukee, Miss Meyers of Kansas, Mrs. Iris Coffman of Ft. Scott, Kansas, Mrs. William Funk of Kansas City, Kansas.

ABSENT BUT NOT FORGOTTEN.

To My Dear Tropic Friends,
Written for the Sentinel.

In the quiet summer evening,
When the night has crowned the day,
And the rose is gemmed with dew-drops,
And I shall be far away.

Far away, but still in memory,
Oft I'll wander back to thee,
And, though other friends surround me,
Oft my thoughts will with thee be.

Oftentimes have I been wayward,
Oft gone wrong, oft given pain,
But I hope 'twill be forgiven,
That no dark blot may remain.

Time has borne us quickly onward
Down its stream so broad and deep;
All our careless words and actions
'Neath its rolling waters sleep.

Many hours in kind communion
With you friends I have sweetly spent,
And I gladly would have stayed them
In their peaceful content.

Many darkling clouds you've brightened
With your tenderness and care,
Given wise and useful counsel
That will help me everywhere.

And should fate deny our meeting
Till the River Death is passed,
Then in joy and life eternal
We shall then unite at last.

—Ella Richardson and Boys.

THE BELLS.

(With Apology to Edgar Allen Poe.)
Hear the tolling of the bells!
Iron bells!

What a world of solemn thought their monody compels!
In the silence of the night
How we shiver with affright
At the melancholy menace of their tone!

For every sound that floats
From the rust within their throats
Is a groan.
And the people, ah, the people—
They that dwell within its sound—
Often wish that they could stifle
That shrill monodic sound,
That bells, bells, bells,
Tolling all the night,
Keeping time, time, time,
In a sort of Runic rhyme,
That tells that the electric bells
At the San ePnando crossing
Have not stopped tolling
All the night.

So the people cannot sleep,
And they wish with earnest longing
That they never had a crossing
Where the bells, bells, bells,
Twanging and clanging,
Keeping time, time, time,
In a sort of Runic rhyme,
Make a clamor and a clanging
Of the bells all the night.

WHO ARE THE LOBBYISTS?

This is an interesting question and the American people should know who they are. They are mostly ex-senators, who remain in Washington, after failing of re-election at home. Senator Poindexter named ex-Senator Dick of Ohio, Butler of North Carolina, DuBois of Idaho, and also ex-Congressmen Littaur of New York and Watson of Indiana. Many other ex-senators and congressmen of less note might be added to the list, for Washington has many of them. The Sugar Trust has the largest lobby of any interest in Washington, and they have a large suite of rooms in the Colorado building, corner of Fourteenth and G streets, under the direction of Frank C. Lowry, who wants to see that the Sugar Trust is not hurt, and has admitted spending over \$200,000 lobbying.

CURRENCY BILL TO BE PRESSED.

President Wilson is insistent that a currency bill be placed on the statutes during the present extra session. He has been deeply impressed by the business men of the country for the necessity of this reform. During the panics of 1893 and 1907 money could not be had with any kind of security, and the new bill will provide means whereby money will be issued by the government in unlimited quantities until all demands for "ready money" have been satisfied. At the close of the war the federal government had issued about three billions of bonds and those bonds could be deposited in the treasury by the banks and get bank notes from the government. In other words, the government bond was the basis of our circulation and when the bonds were plentiful, and it is well known that during the few years following the Civil War, this country enjoyed the greatest prosperity ever known in its history. But now the government has taken up the bulk of its bonds and so other high-class securities will have to be used as a basis for circulation.

When one woman begins a remark to another woman with "See here, honey," it is a sure sign that she has a "bone to pick" with her.

There's a beautiful statue in every block of marble, but only an expert sculptor can make it come out.

For a Vacation Trip

Nothing on the American Continent surpasses that to

Yellowstone Park

It is truly the American Wonderland, with its wonderful geysers, waterfalls, canyons and mountain scenery. The Park is easily and comfortably reached from any point in Southern California by fast trains over the Salt Lake Route and the Oregon Short Line through Salt Lake City, where the time between trains is enough to allow considerable sightseeing.
Round trip fare is quite low and tickets are sold good returning via Portland and Seattle. Any ticket agent can tell you all about it.
If an eastern trip is contemplated the fare for the round trip on certain days until September, from most points, is only \$72.50 to Chicago, \$55.00 to Denver, \$60.00 to Omaha, Kansas City, etc., \$75.70 to St. Paul, \$108.50 to New York, and similar low fares to many other places.

Return limit is three months, but not later than October 31st, and different routes may be taken going and returning if desired. Two limited trains and the Overland Express, with through sleepers to many points east of the Rocky Mountains, afford excellent service to patrons of the

Salt Lake Route

Our agents will be glad to give you full information about these or other trips.

HAPPENINGS

Mrs. Ed Lynch is visiting in Montreal, Canada, and expects to be gone until about October 1st.

L. W. Besserman has purchased the David L. Gregg hardware business on Brand boulevard, Glendale.

Mr. and Mrs. Fred Spears of Penn avenue celebrated the Fourth with Mr. and Mrs. Glen Craig in Burbank.

Mr. Wm. H. LaFontaine, 131 West Acacia, will leave tomorrow for an extended visit to Pittsburg, Pa.

Mrs. J. Serran of Inyo county, visited her son, Mr. Halleck of Moore avenue, the past week.

Mr. and Mrs. Harry Goodwin of West Tenth street have returned from a pleasant two weeks' outing at Redondo Beach.

Rambling about the points of interest on Mt. Lowe, with an empty kodak was how Miss Katherine Hobbs and Mr. Noble Ripley spent the Fourth.

Mr. Will Hudson of Los Angeles was the weekend guest of Mr. and Mrs. Jos. Griffin on West Acacia avenue.

Mrs. Anna Strasser on Oak Drive is entertaining her niece, Miss Meyers, from Salina, Kansas.

Miss Florence Moore of 2277 Hobart boulevard, Los Angeles, was the weekend guest of Mrs. Chas. Miller Truck, 521 North Glendale.

Miss Bertha Hopkins returned last week to her home on San Fernando road after a successful year of teaching at Lancaster.

Harold Schlan, 431 North Glendale, in company with his uncle, left last week for Pontiac, Mich., where he will attend school during the coming year.

Sir Frances Booth and wife are preparing for a tour around the world which they expect to make within a short time.

Mr. and Mrs. Benj. Elgin are moving into a pretty little bungalow on Orange avenue in Glendale. Bonnie is now the star meat cutter at the Central Market.

Dan Campbell spent the Fourth visiting Mrs. Campbell at Catalina, and returned with a glorious coating of sun burn and tan.

Miss Laura Hill, an old-time friend, has been visiting at the home of Mrs. C. L. Peckam, Jackson street, Glendale, and Mrs. C. C. Chandler, Cypress street, Tropic.

Good nature and generosity was the cause of Herman Goodrich on North Central keeping an "open house" last Thursday night. When the roll was called for breakfast next morning only fifteen responded with hearty appetites.

After a pleasant visit to her home town, Springfield, Ill., Mrs. Louise Funnell has returned to her cozy home on West Tenth street. She says the weather was exceptionally fine while there, but she is glad to escape the hot wave that is hanging over the middle west now.

A charming visitor from the East is Miss Iris Coffman who is visiting her cousin, Mrs. Jack Hammond on Cypress avenue. Her home is in Ft. Scott, Kansas, one of those cities which has been sweltering under old Sol's rays for some time. Tropic's ever refreshing sea breeze appeals to her strongly.

Miss S. E. Pollard, who for the past two years has been the efficient stenographer with the D. L. Gregg Hardware Co. of Glendale, will enter a field of her own next week. She will be now known as Public Stenographer, and has secured room with the Robinson Transfer Co. in the Rudy block, where all who need her services will find her ready.

Mr. M. Jenney, Ninth street, Glendale, and son, Max, and Lisle Johnson made a trip to Santa Ana Canyon, leaving here in a Ford Friday morning and returning Sunday evening. The trip, in all about 150 miles of fine riding, was enjoyed immensely by the party in fishing and visiting the different places of interest in the canyon.

An informal party of about twenty-five gathered at the home of Mrs. A. E. Boyce, on Brand boulevard, last Thursday night, and enjoyed themselves by playing cards and music. During the evening punch and wafers was served. Mr. Boyce and Mr. Steve Veslich afterwards took the party in their automobile to view the races.

E. L. Young, of the Emporium, is busy on an idea that appears to be a matter worth looking into. The ice question was the motive, and the "desert color" is the answer. This cooler, when placed in the open, fed only by water, will keep perishable food cold. The idea is found to be universal, the deserts, and as soon as possible Mr. Young will prove to general satisfaction that this same idea will work in Tropic. The cost will be from \$3 to \$5, making it possible for everyone to have a cheap and reliable refrigerator less the cost of ice.

E. H. Weston, who is well known all over the United States as a photographic artist, is preparing several prints to go on exhibition at the thirty-third annual convention of the National Association of Photographers, which convenes at Kansas City, Mo., this month. This association is composed entirely of members of the art of photography who have made a record worthy to place them in the sphere of distinction. Mr. Weston is one of but a very few who are mem-

bers of this association with studios on the coast. One of the main features of this annual meeting is the displaying and judging by competent critics of prints submitted by the various members. Out of this number the very best are hung in national galleries. Several of Mr. Weston's prints have won distinction in past meetings, and no doubt his work will receive further comment at this meeting. It is the intention of the association to hold the 1915 meeting at San Francisco.

Another young and progressive gentleman entered the mercantile ranks of Glendale last week. Mr. F. R. Anderson, formerly connected with the firm of Parker & Sternberg, is now the proprietor of the Square Deal Variety Store, 1208 West Broadway. Mr. Anderson has a new up-to-date stock and his policy will be "a square deal for everybody."

The Glendale Knights of Pythias under the supervision of the social committee opened the lodge rooms to the wives of children, sweethearts and friends last Wednesday evening. Several hours of genuine fun and entertainment prevailed, and after refreshments all present voted the K. P.'s good fellows.

One of the most happy and pleasant events of July 4th was an "Arbor Lunch" in the yard of Mr. C. C. Chandler, on Cypress, at which seventeen children and grand children of Mr. and Mrs. Chandler attended. It was decided to have a larger family gathering on July 13th, when an effort will be made to have all the family, numbering twenty-four, together to celebrate Mr. Chandler's birthday. Large families are all right when they are as congenial as this family.

Mr. and Mrs. Harry Betts, Mr. and Mrs. S. M. Goode and Mr. and Mrs. J. H. Webster, accompanied by the Webster "kids" left Tropic Friday morning for Bear Valley, returning Sunday. Mr. Webster vows that they actually caught all the fine trout they could eat—at least 60 or 70 of 'em. Mr. Webster says he might stretch a point in talking about the Marion auto but he wouldn't tell a fish story for any man.

The beauties of beautiful Griffith Park were enjoyed to the utmost at an early hour Saturday morning. A party of young men and girls of Angelus Park arose that morning at four o'clock and taking a truck ride to the park, they had their morning lunch, which they took with them. Games were afterwards indulged in and a good time had by all. Those who have seen Griffith Park in the day can not describe its beauties in the early wee hours, and anyone wanting something out of the ordinary should rise as this party did and take a hike over there. The party enjoying the fresh, cool crisp morning air of Griffith Park were Matthew, Nevada and Vaughn Jangochian, Elise and Roxie Jangochian and Maria Rigall.

The far-sightedness of J. H. Flower and his strong faith in the future of Glendale decided his course in building a business block, and before the roof was on leases had been signed renting the entire 106-foot frontage. Mr. Flower expressed himself as "being up a stump" now and is on the lookout for more holdings to conquer. This is the optimistic view of everyone in this locality. You can't go wrong.

Mayor Bancroft, accompanied by Mrs. Bancroft, Miss Louise Fleming and Mr. Wirt Bancroft, left Thursday evening about 10 o'clock and ran up San Fernando road to near Roscoe, and watched the races go by, after which, as his honor says, the party "hung up" under a tree until next morning when they continued on for a general good outing over the Fourth. Mr. Bancroft says that the glare from the automobile head lights after the racers went by made the roadway as bright

GROWING

S. C. Maranville, the popular photographer of Glendale, has outgrown his quarters. Business has enlarged to such an extent that to satisfactorily handle his increasing trade he was compelled to seek larger accommodations. The new Flower building offered the desired room and a lease was signed which makes the Glengarry studio one of the most accommodating studios in the valley.

Mr. Maranville is a young man with new ideas and came to Glendale with the determination to win, and his progress has proved the case. Visitors are welcomed into a large, well ventilated and artistically decorated waiting room. Off this room is the camera room, built so that all lights and shadows are taken care of by appropriate scenery. The dark room and printing department are arranged for convenience and all facilities for turning out work expeditiously were fashioned to meet the requirements. The Glengarry Studio is on Broadway just south of Brand boulevard.

MUSIC AND PLEASURE.

A glorious Fourth of July social celebration was held at the residence of Mr. and Mrs. A. J. Coite, 115 East Park avenue. Those present were: Mr. and Mrs. Herman Asimonte, Messrs. Chester and Harry Asimonte, Mr. Mallory and Miss Young, Santa Monica; Messrs. Ira and Arthur Witzell, Mrs. Weinbrenner of Redondo, Mrs. Freeman, Mr. and Mrs. William Carney, Mr. and Mrs. William Carney, Jr., August Breithaupt, Miss Maude Cease, William Schultz, Los Angeles; Mr. and Mrs. Harry Goldsmith, Mr. George Coite and Eugene P. Peugeot of Tropic. Several letters of regard from out-of-town friends were received during the evening.

An elegant banquet was served that

delighted the hearts of all present. The evening was enlivened by the rendering of patriotic and other airs by Messrs. Chester and Harry Asimonte, August Breithaupt, Ira and Arthur Witzell, Mr. Mallory, and Miss Young and Harry Goldsmith. The banquet was out of doors, under the outspread branches of an old pepper tree, which was illuminated at dark with a large number of Japanese lanterns, giving quite an oriental appearance to the scene.

A VERY PLEASANT OCCASION.

The dance given by the Thursday Afternoon Club at the K. of P. hall proved to be one of the most pleasant occasions of its kind given in Tropic for a long time. The music was excellent for dance purposes, the floor was fine, and everyone present was in a most happy mood. During the evening ice cream and cake was served by the ladies and added no little to the pleasure of the evening. A number of couples from Glendale and Los Angeles were present. Dancing was indulged in up to 11:30, at which time all present repaired to different points along San Fernando road for the purpose of viewing the races.

John Logan, Hal Davenport and Wesley Bullis were masters of ceremony, and proved that they were adepts in this line.

A Very Punk Game

Tropic took Sunday's game with a score of 13 to 4. The A. O. U. W.'s were massacred, and there were some chances of them being eaten up, but Tropic took pity on them. The game was marred by some rag chewing on the part of Rich and Laret. It all came up over a glove. Rich refused to stop, and was put on the bench in the sixth inning. Gregg was introduced and played third the remainder of the game, Salazar not showing up enabled Fred Bittle to get before the film and he did good work. The way the Tropic boys wallowed that ball was a caution. They lambasted it to every part of the field, and that's not all, those A. O. U. W.'s couldn't catch or stop them. Oh, my, that A. O. U. W. second baseman; wasn't he a peach? He couldn't stop a ball with a wash tub. He had a wash tub shape on him, but, of course, that wasn't his fault. Everything worked automatically with that candy kid. When he went to catch a ball, his mouth would fly open, his legs would spread out, and his hands would go up as if he were in six feet of water and was going under, and then—the ball would come straight down through his hands to the ground. Some kid! The Tropic boys were unable to show off any of their skill Sunday on account of the others not knowing how to play. The game was somewhat of a disappointment to all, but next Sunday's game is expected to be better.

SUMMARY.

Hits made—Off Sisney 16, off Jetberg 24. Three-base hit—Johnson. Two-base hits—Daniels and Markwith. Bases on balls—Off Sisney 1, off Jetberg 7. Struck out—By Sisney 11, by Jetberg 7. Hit by pitched ball—Porter and Laret by Sisney. Time of game—1 hour 55 minutes. Umpires—Reed and Moniot.

Next Sunday the Tropic boys will play the Myers-Siegel boys. The manager has tried to get a good team out for each Sunday, but has been somewhat disappointed. However, this team comes recommended as being a clean, up-to-the-minute team, and it is expected that a good game will be played.

The Sentinel! Help us make it the best local paper in California.

Health Officer's Talks

No. 2.

VISITING THE SICK.

One of the chief cares of the ordinary general practitioner is to avoid carrying infection from one family to another.

The law of self-preservation rarely enters into his calculations, but it stands to reason he is thoroughly alive to the possibilities of bringing to his own home and family some such undesirable gift as measles or scarlet fever. His own family incurs a hundred-fold more risk than any other and it is to the Doctor's credit that neither his home nor his patients have to suffer because of his negligence.

With all his learning and experience—granting he has any—and his conscientious precautions, it is difficult enough to be sure in this respect.

How much more difficult, then, is it for the average individual without the extensive training of a physician to avoid such a deplorable accident?

As a matter of fact it is an impossibility except to those who do not visit the sick.

There are many other objections to the usual indiscriminate visiting of sick people. Doctors usually wish complete mental and physical quiet for their patients, and unless it is definitely known the ailment is not contagious and the excitement will not harm the patient, it is far better not to visit.

If you cannot dissuade yourself, if you feel it an absolute necessity to visit, regardless of possible contagion or harm to the prospective victim, then by all means

Leave the Children at Home!

The children are the usual sufferers from the indiscretions of their elders. Witness a recent case coming under our observation: A lady dragged her baby and another young child to see the sick daughter of a dear neighbor. The case proved to be one of scarlet fever. From that visit nine cases resulted and unfortunately two deaths. The head of the family after nine weeks' quarantine, is a fit subject for the poor house.

One point more: When you are sick, flock by yourself so far as possible. Leave children alone. Stay away from them and make them stay away from you.

There is in Tropic today a family which would gladly mortgage its home to be able to say "We followed this advice."

"A word to the wise is sufficient."

THE HEALTH OFFICER.

COSTS MONEY TO STOP.

Perhaps it has never occurred to the casual traveler that it actually costs a railroad company money to start and stop its trains, so much that the Southern Pacific Company has had the problem investigated with a view to getting exact figures. While authorities differ on the estimates, it seems quite well established that every time the brakes are applied on an average-sized passenger train, and power applied to set it in motion, the railroad company is out from fifty to sixty cents. It costs about that to take care of the wear and tear upon apparatus, to allow for the strain on the track, to provide the power to pump the air, and to furnish the steam that starts the wheels revolving.

On the Pacific system of the Southern Pacific Company, with hundreds of trains daily, it can readily be seen that unnecessary stops are expensive—that is, stops which are not made to load and unload passengers.

For this reason alone, to say nothing of the more important ones of delay to passengers and merchandise, the railroads are doing their utmost to run trains through without delay. Double tracks, long and frequent sidings, carefully inspected and kept up equipment, are among the things that officials are constantly studying to keep traffic rolling. No one benefits more than a railroad in keeping the traffic in motion once it starts, so that it may go from point of origin to destination with as few stops as possible.

RECORDER'S COURT.

In Judge Melrose's court in the case of T. E. Dodd vs. H. J. McClemmey, judgment and cost of suit was awarded to the plaintiff. In the case of James L. Ervin vs. E. L. Wilke, judgment and cost of suit was awarded to plaintiff.

TO BE BETTER THAN EVER Many of the music lovers of Tropic and Glendale enjoyed the concerts given last winter by the People's Orchestra at the Temple Auditorium. The People's Orchestra is now perfecting its plans for next season's work, which begins September 21, and expects to give forty concerts during the coming season. The hearty response of the public last year, which was evidenced by the gross attendance of 45,000 for the thirty concerts given, shows the interest that is being taken by all classes in the broadest educational scheme any city has ever undertaken from a musical standpoint. The orchestra has made a stand for, and has played American compositions and many surprises are promised the public next season. Having a chance to be heard has been a great advantage to many of the local composers who heretofore have had no opportunity to have their compositions presented.

YOU NEVER CAN TELL. From the division headquarters of the Southern Pacific Company at Sparks, Nevada, comes the story of how one of the foremost leaders of the railroad system of the new Chinese republic learned the rudiments of his calling in the Montello shops. Ah Chin, general superintendent of motive power of the King Yuen Railway Company, in China, worked for the Southern Pacific Company for twenty-seven years in the boiler shops, starting in as a helper and mastering the advanced details step by step, later to leave again for his own country to head the mechanical department of one of its greatest roads. With Ah Chin, at Winnemucca at one time, was also Dr. Sun Yat Sen, later chosen the first president of the Chinese republic. Though Sun Yat Sen did not work for the railroad company, he was always much interested in the development of Western transcontinental lines, and is said to have applied many American methods in the Orient with pronounced success.

RESOLUTION NO. 137. A RESOLUTION OF THE BOARD OF TRUSTEES ORDERING CERTAIN STREET WORK TO BE DONE ON DUNBARTON STREET. The Board of Trustees of the City of Tropic do resolve as follows: SECTION 1. That the street work herein described is required by the public interest and convenience, and the Board of Trustees of the City of Tropic, State of California, hereby orders the same to be done, according to the specifications and plans adopted

for said work, and under the direction and to the satisfaction of the Superintendent of Streets of said City, to-wit: First—That that portion of Dunbarton Street from the South line of Acacia Avenue to the North line of Moore Avenue be graded, oiled and stamped in accordance with plans and profile and specifications No. 9 for grading, oiling and tamping of streets.

Second—That a cement curb be constructed along each line of the roadway of Dunbarton Street from the South line of Acacia Avenue to the North line of Moore Avenue, said curb to be constructed in accordance with plans and profile and specifications No. 2 for the construction of cement curbs. Third—That a cement sidewalk five feet in width be constructed along both side lines of Dunbarton Street from the South line of Acacia Avenue to the North line of Moore Avenue, said sidewalk to be constructed in accordance with plans and profile and specifications No. 1 for the construction of cement sidewalks.

All plans and profiles referred to in this resolution are on file in the office of the City Engineer of said City. All specifications referred to in this resolution are on file in the office of the City Clerk of said City. Said plans, profiles and specifications are hereby referred to for more particular description of said work and made a part hereof.

SECTION 2. The Board of Trustees of the City of Tropic determines that serial bonds shall be issued to represent assessments of twenty-five dollars (\$25.00) or over for the cost of said work or improvement; said serial bonds shall extend over a period ending nine (9) years from and after the second day of January next succeeding the date of said bonds, and an even annual proportion of the principal sum thereof shall be payable, by coupon, on the second day of January every year after their date until the whole is paid; and the interest shall be payable semi-annually, by coupon, on the second days of January and July, respectively, of each year, at the rate of seven (7) per cent per annum on all sums unpaid, until the whole of said principal and interest are paid. Said bonds shall be issued in accordance with the provisions of an Act of the Legislature of the State of California, entitled "An Act to provide a system of street improvement bonds to represent certain assessments for the cost of street work and improvement within municipalities, and also for the payment of such bonds," approved February 27, 1893, and of all acts supplementary thereto or amendatory thereof.

SECTION 3. The Tropic Interurban Sentinel, a weekly newspaper of general circulation, published and circulated in the City of Tropic, is hereby designated as the newspaper in which this resolution and notice of said work inviting sealed proposals shall be published in the manner and form and by the persons required by law.

SECTION 4. The City Clerk of the City of Tropic is hereby directed to post conspicuously for five days, on or near the chamber door of the Board of Trustees, in the manner and form required by law, a notice, with specifications, inviting sealed proposals or bids for doing said work; and said City Clerk is hereby directed to publish two days in said newspaper, hereby designated as aforesaid, in the manner and in the form required by law, a notice of said work inviting sealed proposals or bids for doing said work, and referring to the specifications posted or on file. Said notice shall require a certified check or bond, either as prescribed by law, and for an amount not less than ten per cent of the aggregate of the proposal. Said City Clerk is also hereby directed to publish this resolution for two days in the manner required by law in said newspaper designated for that purpose, as aforesaid.

Adopted and approved this 3rd day of July, 1913. (Seal) C. A. BANCROFT, President of the Board of Trustees of the City of Tropic.

Attest: S. M. STREET, City Clerk of the City of Tropic. By J. L. FISHBACK, Deputy.

STATE OF CALIFORNIA, CITY OF TROPICO—SS. I, S. M. Street, City Clerk of the City of Tropic, do hereby certify that the foregoing Resolution was duly adopted by the Board of Trustees of the City of Tropic, State of California, and signed by the President of said Board, at a regular meeting thereof, held on the 3rd day of July, 1913, and that the same was passed by the following vote, to-wit:

Ayes: Bancroft, Conrad, Holbs, Oliver, Webster. Noes: None. Absent—None. S. M. STREET, City Clerk of the City of Tropic. By J. L. FISHBACK, Deputy. July 9-16 21.

NOTICE INVITING STREET WORK PROPOSALS. Pursuant to Statutes, and to Resolution 137 of the Board of Trustees of the City of Tropic, California, adopted this 3rd day of July, 1913, directing this notice, the undersigned invites, and will receive at his office in the City Hall, in the Bank of Tropic Building, located at the junction of Central Avenue and San Fernando Road, in the City of Tropic, up to 7:00 o'clock p. m. of Thursday, July 17, 1913, sealed proposals or bids for the following street work to be done according to the plans and specifications posted and on file therefor adopted, or herein mentioned, to-wit:

First—That that portion of Dunbarton Street from the South line of Acacia Avenue to the North line of Moore Avenue be graded, oiled and stamped in accordance with plans and profile and specifications No. 9 for grading, oiling and tamping of streets.

Second—That a cement curb be constructed along each line of the roadway of Dunbarton Street from the South line of Acacia Avenue to the North line of Moore Avenue, said curb to be constructed in accordance with plans and profile and specifications No. 2 for the construction of cement curbs.

Third—That a cement sidewalk five feet in width be constructed along both side lines of Dunbarton Street from the South line of Acacia Avenue to the North line of Moore Avenue, said sidewalk to be constructed in accordance with plans and profile and specifications No. 1 for the construction of cement sidewalks.

All plans and profiles referred to in this Resolution are on file in the office of the City Engineer of said City. All specifications referred to in this Resolution are on file in the office of the City Clerk of said City. Said plans,

profiles and specifications are hereby referred to for more particular description of said work and made a part hereof.

SECTION 2. The Board of Trustees of the City of Tropic determines that serial bonds shall be issued to represent assessments of twenty-five dollars (\$25.00) or over for the cost of said work or improvement; said serial bonds shall extend over a period ending nine (9) years from and after the second day of January next succeeding the date of said bonds, and an even annual proportion of the principal sum thereof shall be payable, by coupon, on the second day of January every year after their date until the whole is paid; and the interest shall be payable semi-annually, by coupon, on the second days of January and July, respectively, of each year, at the rate of seven (7) per cent per annum on all sums unpaid, until the whole of said principal and interest are paid. Said bonds shall be issued in accordance with the provisions of an Act of the Legislature of the State of California, entitled "An Act to provide a system of street improvement bonds to represent certain assessments for the cost of street work and improvement within municipalities, and also for the payment of such bonds," approved February 27, 1893, and of all acts supplementary thereto or amendatory thereof.

Bidders must file with each proposal or bid a check payable to the order of the Board of Trustees of the City of Tropic, certified by a responsible bank, for an amount which shall not be less than ten per cent of the aggregate of the proposal, or a bond for the said amount, and two sureties who shall justify before any officer competent to administer oaths, for double the said amount, and over and above all statutory exemptions. In bidding, use the check which will be furnished by the City Clerk upon application. Tropic, California, July 3, 1913. S. M. STREET, City Clerk and Ex-Officio Clerk of the Board of Trustees of the City of Tropic, California. By J. L. FISHBACK, Deputy. July 9-16 21.

NOTICE OF AWARD OF CONTRACT. Pursuant to statute and to the Resolution of Award of the Board of Trustees of the City of Tropic, California, adopted the 3rd day of July, 1913, directing this notice, notice is hereby given that the said Board of Trustees, in open session on the 3rd day of July, 1913, opened, examined and publicly declared all sealed proposals or bids offered for the following work, to-wit: First—That

CYPRESS STREET from the Easterly line of Glendale Avenue to the Southerly prolongation across Cypress Street of the Easterly line of Mountain Avenue, including all intersections of streets, be graded, oiled and tamped to the official grade in accordance with plans and profiles on file in the office of the City Engineer and in accordance with Specifications No. 9 for the grading, oiling and tamping of streets in the City of Tropic.

Second—That a cement curb be constructed along each line of the roadway of said Cypress Street, from the Easterly line of Glendale Avenue to the Southerly prolongation across Cypress Street of the Easterly line of Mountain Avenue, including returns at all street intersections, in accordance with Specifications No. 2 for the construction of cement curbs in the City of Tropic.

Third—That a cement sidewalk five feet in width be constructed along each side line of Cypress Street, from the Easterly line of Glendale Avenue to the southerly prolongation across Cypress Street of the Easterly line of Mountain Avenue, including returns at all street intersections, in accordance with Specifications No. 1 for the construction of cement sidewalks in the City of Tropic.

Fourth—That MOUNTAIN AVENUE from the Northerly line of Cypress Street to the Northerly line of Tract No. 282, as per map recorded in Book 14, pages 18 and 19, of Maps, Records of Los Angeles County, California, including all intersections of streets and alleys, be graded, oiled and tamped to the official grade, in accordance with plans and profiles on file in the office of the City Engineer, and in accordance with Specifications No. 9 for the grading, oiling and tamping of streets in the City of Tropic.

Fifth—That a cement curb be constructed along each line of the roadway of said Mountain Avenue, from the Northerly line of Cypress Avenue to the Northerly line of said tract numbered 282, including returns at all street and alley intersections, in accordance with Specifications No. 2 for the construction of cement curbs in the City of Tropic.

Sixth—That a cement sidewalk five feet in width be constructed along each side line of said Mountain Avenue, from the Northerly line of Cypress Street to the Northerly line of Tract No. 282, in accordance with Specifications No. 1 for the construction of cement sidewalks in the City of Tropic.

SECTION 2. The Board of Trustees of the City of Tropic determines that serial bonds shall be issued to represent assessments of twenty-five dollars (\$25.00) or over for the cost of said work or improvement; said serial bonds shall extend over a period ending nine (9) years from and after the second day of January next succeeding the date of said bonds, and an even annual proportion of the principal sum thereof shall be payable, by coupon, on the second day of January every year after their date until the whole is paid; and the interest shall be payable semi-annually, by coupon, on the second days of January and July, respectively, of each year, at the rate of seven (7) per cent per annum on all sums unpaid, until the whole of said principal and interest are paid. Said bonds shall be issued in accordance with the provisions of an Act of the Legislature of the State of California, entitled "An Act to provide a system of street improvement bonds to represent certain assessments for the cost of street work and improvement within municipalities, and also for the payment of such bonds," approved February 27, 1893, and of all acts supplementary thereto or amendatory thereof.

SECTION 3. The Tropic Interurban Sentinel, a weekly newspaper of general circulation, published and circulated in the City of Tropic, is hereby designated as the newspaper in which this resolution and notice of said work inviting sealed proposals shall be published in the manner and form and by the persons required by law.

SECTION 4. The City Clerk of the City of Tropic is hereby directed to post conspicuously for five days, on or near the chamber door of the Board of Trustees, in the manner and form required by law, a notice, with specifications, inviting sealed proposals or bids for doing said work; and said City Clerk is hereby directed to publish two days in said newspaper, hereby designated as aforesaid, in the manner and in the form required by law, a notice of said work inviting sealed proposals or bids for doing said work, and referring to the specifications posted or on file. Said notice shall require a certified check or bond, either as prescribed by law, and for an amount not less than ten per cent of the aggregate of the proposal. Said City Clerk is also hereby directed to publish this resolution for two days in the manner required by law in said newspaper designated for that purpose, as aforesaid.

Approved and adopted this 12th day of June, 1913. (Seal) C. A. BANCROFT, President of the Board of Trustees of the City of Tropic. Attest: S. M. STREET, City Clerk of the City of Tropic. By J. L. FISHBACK, Deputy. STATE OF CALIFORNIA, CITY OF TROPICO—SS. I, S. M. Street, City Clerk of the City of Tropic, do hereby certify that the foregoing resolution was duly adopted by the Board of Trustees of the City of Tropic, State of California, and signed by the President of said Board, at a regular meeting thereof, held on the 12th day of June, 1913, and that the same was passed by the following vote, to-wit: Ayes: Bancroft, Hobbs, Oliver, Webster. Noes: None. Absent: Conrad. S. M. STREET, City Clerk of the City of Tropic. By J. L. FISHBACK, Deputy. July 9 11.

SCHOOL BOND ELECTION NOTICE. Notice is hereby given to the qualified electors of Tropic City, School District of the County of Los Angeles, State of California, that in accordance with the provisions of the Political Code of the State of California, an election will be held on the 19th day of July, 1913, at the school house in said District, between the hours of 1:00 p. m. and 5:00 p. m. (during which period and between which hours the polls shall remain open), at which election the question of issuing and selling bonds of said district to the amount of twenty thousand dollars, for the purpose of raising money for purchasing school lots, for building or purchasing one or more school buildings, for insuring the same, for supplying the same with furniture or necessary apparatus, and for improving school grounds will be voted upon.

The said bonds thereunder to be issued and sold, shall be of the denomination of one thousand dollars each, and shall bear interest at the rate of five per cent per annum, payable semi-annually, and shall be numbered from 1 to 20 consecutively, payable as follows: Bond No. 1, one thousand dollars, to run 1 year. Bond No. 2, one thousand dollars, to run 2 years. Bond No. 3, one thousand dollars, to run 3 years. Bond No. 4, one thousand dollars, to run 4 years. Bond No. 5, one thousand dollars, to run 5 years. Bond No. 6, one thousand dollars, to run 6 years. Bond No. 7, one thousand dollars, to run 7 years. Bond No. 8, one thousand dollars, to run 8 years. Bond No. 9, one thousand dollars, to run 9 years. In Witness Whereof, we have hereunto set our hands this 19th day of June, 1913. JAMES RICH, ABBY P. BARKER, CLYDE R. CARMACK, Trustees of said School District, Los Angeles County, California. In Districts in which the number of children between five and seventeen years of age exceed 500, the polls must be opened at 8 o'clock a. m. and kept open until sundown. In other Districts the polls must not be opened before 9 o'clock a. m. nor kept open less than four hours, nor later than sundown. June 25-July 2d—3t

SECTION 4. The City Clerk of the City of Tropic is hereby directed to post conspicuously for five days, on or near the chamber door of the Board of Trustees, in the manner and form required by law, a notice, with specifications, inviting sealed proposals or bids for doing said work; and said City Clerk is hereby directed to publish two days in said newspaper hereby designated as aforesaid, in the manner and in the form required by law, a notice of said work inviting sealed proposals or bids for doing said work, and referring to the specifications posted or on file. Said notice shall require a certified check or bond, either as prescribed by law, and for an amount not less than ten per cent of the aggregate of the proposal. Said City Clerk is also hereby directed to publish this resolution for two days in the manner required by law in said newspaper designated for that purpose, as aforesaid.

Approved and adopted this 12th day of June, 1913. (Seal) C. A. BANCROFT, President of the Board of Trustees of the City of Tropic. Attest: S. M. STREET, City Clerk of the City of Tropic. By J. L. FISHBACK, Deputy. STATE OF CALIFORNIA, CITY OF TROPICO—SS. I, S. M. Street, City Clerk of the City of Tropic, do hereby certify that the foregoing resolution was duly adopted by the Board of Trustees of the City of Tropic, State of California, and signed by the President of said Board, at a regular meeting thereof, held on the 12th day of June, 1913, and that the same was passed by the following vote, to-wit: Ayes: Bancroft, Hobbs, Oliver, Webster. Noes: None. Absent: Conrad. S. M. STREET, City Clerk of the City of Tropic. By J. L. FISHBACK, Deputy. July 9 11.

SECTION 4. The City Clerk of the City of Tropic is hereby directed to post conspicuously for five days, on or near the chamber door of the Board of Trustees, in the manner and form required by law, a notice, with specifications, inviting sealed proposals or bids for doing said work; and said City Clerk is hereby directed to publish two days in said newspaper hereby designated as aforesaid, in the manner and in the form required by law, a notice of said work inviting sealed proposals or bids for doing said work, and referring to the specifications posted or on file. Said notice shall require a certified check or bond, either as prescribed by law, and for an amount not less than ten per cent of the aggregate of the proposal. Said City Clerk is also hereby directed to publish this resolution for two days in the manner required by law in said newspaper designated for that purpose, as aforesaid.
